

With a Little Love

Music and Lyrics: Bob Janas

With a little lovin' see what you can do
With a little lovin' we can see it through
Just a little love makes the world a better place
Put a little lovin' smile upon your face

Love'll shine bright, planting a seed
Lennon got it right, it's all that you need
Spread it around, watchin' it grow
Love'll come around, then you'll know

Ev'rywhere around the world
Each man and woman, ev'ry boy and girl
Need to know they've got enough
So brother, sister can you spare some love?

With a little lovin' we can make it right
Soon the day is comin', love'll be the light

Find a little lovin', hold it in your hand
You'll believe in somethin' when you understand
That a little love makes the world a better place
Let a little lovin' be your savin' grace

Deep in the night you're not alone
Love's the brightest light you've ever known
Every day wherever you go
Love'll show the way, don't you know

Ev'rywhere around the world
Each man and woman, ev'ry boy and girl
Need to know they've got enough
So brother, sister can you spare some love?

With a little love we'll begin to change the world (*repeat...*)
